

Nutanix .NEXT Show 2020

Nutanix Got Talent

Calling All Performers!

Have you learned a new talent while sheltering in place, or have you spent years perfecting a skill? Have you ever thought it would be fun to go on a national “Got Talent” show, or be your nation’s new singing Idol? If so, Nutanix would love to showcase YOU at the upcoming .NEXT Digital Conference!

GUIDELINES FOR SUBMISSION:

Preparing to Record:

- We will be sharing short video clips, so please keep your talent to a 30-second demonstration
- Use your mobile device to record the video—place it on a tripod, a stack of books, or give it to a family member with a steady hand
- Record your video horizontally (like a movie screen) not vertically
- Make sure the device is relatively close (within 6 feet, or 2 meters) and perform at a normal volume. Do not cover the microphone as you are performing
- Choose a quiet area without traffic, wind or background noise to record your video
- Avoid filming with a window behind you, as this will affect the camera’s light balance
- Make sure your face is well lit as you perform
- For the most flattering angle, record yourself with the camera at eye-level or slightly above

Recording:

- Clean your camera lens with a soft microfiber cloth so the video is as crisp as possible
- Open up your camera app and hit record
- Let the recording roll for 5 full seconds before you perform
- As you record look at the camera lens, not at the image of yourself onscreen
- Have fun and smile!
- After 30-45 seconds, conclude your performance and smile, wave or take a bow to the camera!
- Let the recording roll for 5 full seconds after your performance ends before turning off the recording. (The beginning and end pauses will be edited out before they are broadcast)

After Recording:

- Double-check your video and make sure you can hear the audio and the video is clear. If you have any recording difficulties, please email Pam Marr (pam.marr@iv.com)
- Send the file with the highest quality resolution possible
- Save your final recording to the Google Drive here: [LINK](#)
- Use this naming system as you save your file in Google Drive, so we can credit you: PerformerName_Company_JobTitle_CityName_State_Country_TalentDescription
- **The deadline for submissions is Saturday, August 1, 2020**

The video you send in will be the video played during the event—it is your audition piece AND final performance, so make sure you are happy with your video. Limited spots are available, we can’t wait to see your talent!

Sincerely,
Your Nutanix .NEXT Digital Experience Planning Team
