

# WEEE Collection and Recycling Arrangements in Luxembourg

**Nutanix's WEEE producer registration number in Luxembourg is D13/00017**

Nutanix equipment is sold in Luxembourg by Channel Partners. The Channel Partner imports the equipment into Luxembourg. Thus, the Channel Partner has the legal responsibility to:

- Register as the WEEE producer in Luxembourg
- provide arrangements for collection and recycling of WEEE arising from Nutanix equipment that the Channel Partner sells in Luxembourg

Under the Luxembourg Waste Electrical and Electronic Equipment legislation that came into force on August 13th 2005, for equipment that you buy from a Nutanix Channel Partner after August 13th 2005, the Channel Partner is required to provide arrangements for the collection, treatment, recycling and recovery of WEEE that your new purchase replaces, on a one-for-one, like-for-like basis. The old equipment that your new purchase from the Nutanix Channel Partner replaces is referred to as Historic WEEE.

Under the WEEE Ordinance, the Channel Partner is also required to provide arrangements for the collection, treatment, recycling and recovery of any electrical and electronic equipment that you buy from the Channel Partner after August 13th 2005 when that equipment eventually becomes waste. This is referred to as New WEEE.

Nutanix has decided to provide WEEE collection and recycling on behalf of its Dealers in Luxembourg.

Nutanix products are very competitively priced. Any new increase in operating costs for manufacturers such as Nutanix is normally reflected in a price increase in the product. However, instead of increasing the prices of our products, Nutanix has decided to share these new environmental costs directly with our customers. We believe in being transparent with you on any new environmental costs that our products need to address.

Our approach to sharing these new environmental costs is:

- Nutanix pays for the costs of treatment, recycling and recovery of the WEEE to meet the targets set by the WEEE Ordinance;
- Nutanix pays for the costs of data management and reporting to the

Federal Minister of Agriculture and Forestry, Environment and Water Management to demonstrate compliance with all administrative requirements of the WEEE Ordinance;

- you pay for transportation of your WEEE to Nutanix's appointed recycler in Luxembourg.

Nutanix has established a recycling contract with the European Advanced Recycling Network (EARN) and will cover any costs of treatment, recycling and recovery of the equipment on arrival at the EARN recycling facility in Luxembourg. All New WEEE that arises from the purchase of Nutanix products is classed as non-hazardous waste.

It is your responsibility to arrange and pay for costs of collection and transportation to the recycler.

To request collection and transport of large amounts of WEEE please use the following link:
