

WEEE Collection and Recycling Arrangements in Slovakia

Nutanix products are sold in Slovakia by dealers and distributors. The dealers and distributors act as the importer of the equipment into Slovakia. Thus, the dealers and distributors have the legal responsibility to:

- Register as the WEEE producer in Slovakia.
- Provide arrangements for collection and recycling of WEEE arising from Nutanix products that the dealer and distributor sells in Slovakia.

Under Slovakian WEEE legislation, for Nutanix equipment that you buy after August 13th 2005, the Nutanix distributor is required to provide arrangements for the collection, treatment, recycling and recovery of the waste electrical and electronic equipment (WEEE) that your new purchase replaces, on a one-for-one, like-for-like basis. The old equipment that your new purchase from Nutanix replaces is referred to as Historic WEEE.

Under the Decree, the Nutanix distributor is also required to provide arrangements for the collection, treatment, recycling and recovery of any new electrical and electronic equipment that you buy from Nutanix after August 13th 2005, when that new equipment eventually becomes waste. This is referred to as new WEEE.

Nutanix has decided to join the compliance scheme SEWA on behalf of its distributors in Slovakia to manage all aspects of WEEE collection and recycling in Slovakia. Please contact SEWA below to arrange collection of the WEEE.
