

Renowned Australian retailer Forever New Clothing Pty Ltd. needed to modernize its ageing infrastructure to support its expanding global business. With Nutanix, Forever New optimized system performance, simplified management and future-proofed its technology investments, enabling seamless sales across multiple touchpoints and exceptional customer service.

Outdated infrastructure hindering...

- ## Solutions

- ## Business Outcomes

- ## 1 “One-click” Multi-Cloud Strategy
- Single pane of glass that distributes workloads easily across private and public clouds, controlling cloud costs and ensuring applications run where they best fit.

- ## 2 Enhanced Customer Satisfaction
- Increased accuracy of real-time inventory data to deliver a seamless shopping experience.

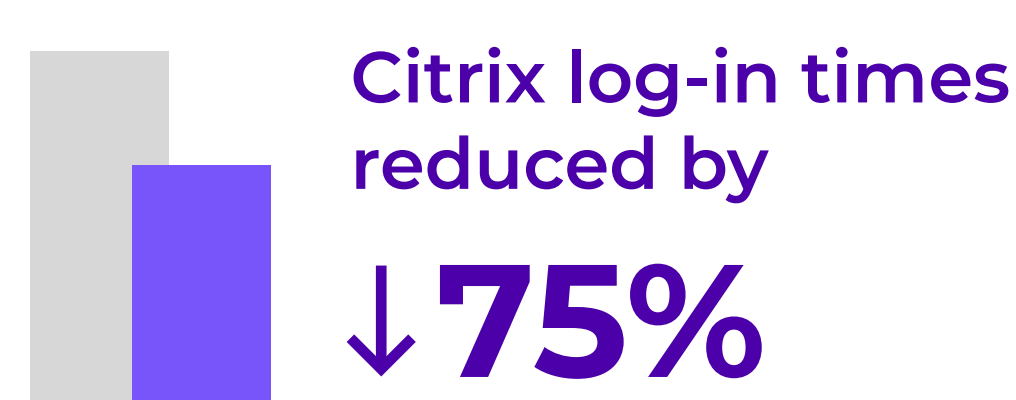

- ### 3 Greater Protection Against Cyber Threats

Critical data backups

 **87.5%**
quicker

enabling more frequent backups, which reduces the risk of data loss and increases the ability to successfully recover from incidents.

- #### 4 Faster Access to Applications

- ## 5 Improved Sustainability

Nutanix gives us a single management platform to balance our workloads across multiple clouds. It is the key to our hybrid cloud strategy – an in-house infrastructure that natively connects to cloud and optimizes costs.
