

Nutanix in 60 Seconds: Oil and Gas Edition

Nutanix puts your focus on innovation and business with industry leading Hyperconverged Infrastructure and Enterprise Cloud.

- 100% software-defined hyperconverged infrastructure (HCI) to increase agility and scale one node at a time.
- Support the most demanding applications across upstream, midstream, downstream and retail operations with best user experience.
- Make better decisions faster with remote, virtual access to data and apps for visualization and collaboration virtually anywhere.
- Simplify operations, increase security and reduce costs by as much as 60% with 'one-click' datacenter infrastructure, cloud and applications management.

Nutanix helps make IT invisible. Our software-defined HCI converges compute, storage and networking, resulting in far simpler operation and a smaller footprint than legacy architecture. results in a smaller datacenter footprint.

Nutanix makes applications - and virtualization - a snap to deploy and scale, with easy virtualized for broader remote access with the best user experience from almost anywhere. We support everything from business-focused apps (SAP HANA, Oracle, etc.) to industry-specific apps like Schlumberger Petrel® and Landmark Software DecisionSpace®.

The Nutanix Enterprise Cloud helps IT teams **build and operate powerful hyperconverged infrastructure and multi-cloud architectures**. Our software melds private, public and distributed cloud operating environments and provides a single point of control to manage IT infrastructure and applications at any scale.

Hyperconverged:

Integrate compute, virtualization, storage, networking and security

Full cloud stack:

Embrace the cloud and enable functionality like self service

One-click simplicity:

Streamline IT lifecycle management and lower time spent

Focus on apps:

Accelerate deployments, performance and scalability your apps need

Built-in security:

Simple protects your valuable data and apps

Freedom of choice:

Choose your hypervisor, your hardware, your cloud

WHAT'S NEXT

Do you have any of these use cases in your organization? Nutanix can help with:

- Private and hybrid cloud infrastructure → support every workload
- Data center modernization → update with scalable, modern 'one-click' HCI
- VDI → support connection to apps and all data from anywhere
- Grow your remote infrastructure → field office operations (ROBO) and Edge computing
- IoT → leverage growing data at the edge to optimize operations
