

63%

of IT leaders at financial organizations say IT complexity has increased in the last

Omdia
by informa techtarget

Financial services organizations are navigating unprecedented complexity as they seek to embrace innovation, such as cloud and AI, to stay ahead of the competition, while also maintaining myriad legacy systems and workloads. Further compounded by ongoing cyberthreats and regulatory demands, IT leaders at financial firms are looking to embrace modern architecture platforms that can help them successfully navigate these multiple pressures.
