Nutanix on Inspur servers in 30 seconds

Why?

Invisible Infrastructure
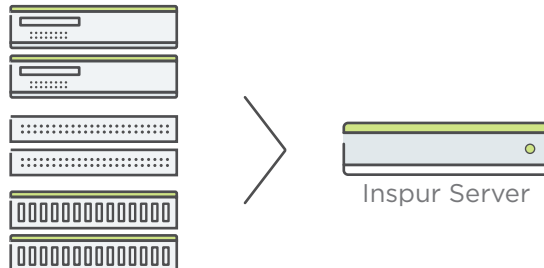

Nutanix is on a mission to make datacenter infrastructure invisible, elevating IT to focus on applications and services

Just Works

Removes Constraints

Eliminates Guesswork

What?

Enterprise Cloud Platform

Nutanix natively converges compute, storage and virtualization into a turnkey enterprise cloud platform that can be deployed in 30-60 minutes, and runs any app at any scale.

Inspur Server

How?

Web-Scale

The Nutanix Enterprise Cloud Platform is uniquely built using web-scale technologies and architectures that originated in large Internet companies such as Alibaba, Tencent and Baidu and delivers cloud-like agility and lower costs

Inspur is a registered trademark of Inspur
