

EUC Discovery and Assessment

Product Code: CNS-EUC-A-WRK-TXF

At-a-Glance

Stage: Assess

The End User Computing (EUC) Discovery and Assessment offers IT teams an assessment of the current EUC environment with the essential knowledge and planning insights needed to successfully bring existing physical or virtual desktop inventory to the Nutanix Cloud Platform (NCP). This engagement provides a tool-based data collection effort and assessment to classify users, applications, and workstations. This engagement is ideal for the Assess stage of the hybrid multicloud journey.

Related Services

- EUC Broker Design
- EUC Broker Deployment

Service Scope

Delivered by highly skilled consultants with solid domain expertise and rich experience, the engagement begins with a discovery session. The consultant deploys the collection tool. Upon completion of the data collection, the consultant delivers a comprehensive analysis and current state assessment to ensure that resource and use case requirements are identified. This assessment supports a detailed, accurate design for a future state desktop and virtualization architecture using the Nutanix EUC Broker Design service.

The service includes the following activities:

- Conduct a discovery and collection session:
 - Assess the current state of systems, applications, and users
 - Deploy collection tool infrastructure
 - Assist with the deployment of collection agents
- Upon completion of the data collection period, conduct a current state assessment
 - Group users into categories/use cases to support desktop environment design
 - Assess application requirements for CPU, memory, GPU, network, and disk
 - Assess user and use case requirements for CPU, memory, GPU, network, and disk
 - Assess the use of peripherals, printing, and communications software
 - Assess network configuration impacts and requirements
 - Develop specifications for endpoint hardware, VMs, and software required for each use case

Project Management

Nutanix Project Management (PM) oversees Nutanix resources and aligns execution with your goals, scope, and timelines.

Core project management activities may include the following:

- Serve as a single point of contact for all project communication

- End-to-end Nutanix resource management
- Coordinate change window(s) and implementation schedules with customer
- Track and facilitate readiness and prerequisite completion
- Conduct project kickoff/technical readiness meeting(s)
- Integrate customer resources into the high-level project timeline
- Send status update(s)
- Manage timeline(s)
- Deliver created artifacts to the customer
- Facilitate project closeout activities

Limitations

- For each quantity purchased, assessment is limited to a pack of 500 individual systems or users
- Excludes EUC Broker design, deployment, and migration

Supported Collection Tools

- Liquidware Stratusphere UX

Supported EUC Brokers

- Citrix Virtual Apps and Desktops
- Citrix DaaS
- Ommissa Horizon

Project Management

- Excludes scheduling customer resources and activities
- Excludes detailed project plan (schedule) development and management
- Excludes responsibility for creating, managing, or delivering change management communications

Prerequisites

- Completed EUC Discovery Configuration Worksheet
- Ability and capacity to install collection tool agent software in existing EUC environment for data collection
- Data collection period of 2 weeks minimum required, maximum 30 days

Required Product Licenses

- Collection Tool licensing is supplied, but use is limited to the scope defined above
- Additional agents or data collection period requires additional Collection Tool license purchase

Delivered Artifacts

Artifact	Description
Findings Report	Summarizes the insights gathered during the assessment session, highlighting the current landscape of devices, applications, user profiles, and operational processes across the organization. It captures the technical and business observations that shape readiness for modernization, optimization, or transformation initiatives.

Level of Effort

Typically up to 5 days plus data collection (up to 30 days)

Delivery Type

Delivery Type	Delivery Activities
Virtual	<ul style="list-style-type: none">• Virtual discovery session• Virtual documentation• Virtual project management <p>Note: Any in-person project management activities provided solely at Nutanix's discretion</p>
