

NUS Migration Planning

Product Code: CNS-NUS-A-WRK-DSGN

At-a-Glance

Stage: Design

The NUS Migration Planning offers storage teams in-depth and practical guidance to create a comprehensive storage migration plan for migrating data to one of the available Nutanix Unified Storage (NUS) data services: Objects, Volumes, or Files. This offer benefits the Migrate stage of a hybrid multicloud journey.

Related Services

- NUS Files Migration

Service Scope

Highly skilled consultants with solid storage domain expertise and rich experience begin with a discovery session that collects availability requirements, current and desired database versions, application dependencies, and maintenance windows. The consultant then conducts a planning session based on the discussions undertaken during the discovery session and creates a migration plan.

The service includes the following activities:

- Conduct a storage migration discovery session:
 - Gather and document migration requirements, constraints, assumptions, dependencies, and decisions for the migration effort
- Conduct storage migration planning session:
 - Discuss migration options and constraints for each migration method based on the database versions, operating system, and application availability
 - Assess the current state of systems to be migrated
 - Review options for migrating existing data to the planned NUS infrastructure, including recommended migration tools
 - Assess network configuration impacts and requirements
 - Develop a migration plan, process, and migration waves
 - Develop a post-migration validation plan

Project Management

Nutanix Project Management (PM) oversees Nutanix resources and aligns execution with your goals, scope, and timelines.

Core project management activities may include the following:

- Serve as a single point of contact for all project communication
- End-to-end Nutanix resource management
- Coordinate change window(s) and implementation schedules with customer
- Track and facilitate readiness and prerequisite completion

- Conduct project kickoff/technical readiness meeting(s)
- Integrate customer resources into the high-level project timeline
- Send status update(s)
- Manage timeline(s)
- Deliver created artifacts to the customer
- Facilitate project closeout activities

Limitations

- For each quantity purchased, migration planning is limited to up to 10 sources (share/bucket/LUN) of one of the supported data types listed below

Project Management

- Excludes scheduling customer resources and activities
- Excludes detailed project plan (schedule) development and management
- Excludes responsibility for creating, managing, or delivering change management communications

Supported Data Types

- File data migrating to NUS Files
- Block data migrating to NUS Volumes
- Amazon S3-compatible bucket/object data migrating to NUS Objects

Prerequisites

- Completed NUS Migration Worksheet

Required Product Licenses

- None

Delivered Artifacts

Delivered Artifact	Description
Migration Workbook	Captures detailed migration inputs and decisions gathered during migration planning activities, including source environments, workloads, dependencies, sequencing, and assumptions. The workbook serves as a working reference to support accurate planning and execution of the migration.
Migration Plan	Defines the end-to-end approach for migrating workloads to the target environment, detailing scope, sequencing, roles and responsibilities, timelines, dependencies, risks, and rollback considerations to enable a controlled and predictable migration.

Delivered Artifact	Description
Migration Test Plan	Documents the testing approach used to validate migrated workloads and services, including test scope, success criteria, and validation activities required to confirm functionality, performance, and operational readiness post-migration

Note: This offer is available with several documentation options, defined here <https://www.nutanix.com/support-services/consulting-services/documentation-tiers>

Level of Effort

Typically up to 4 days

Delivery Type

Delivery Type	Delivery Activities
Virtual	<ul style="list-style-type: none">• Virtual planning session• Virtual documentation• Virtual project management <p>Note: Any in-person project management activities provided solely at Nutanix's discretion</p>
