

Cutting Costs and Boosting Security: Stratodesk NoTouch Desktop and Nutanix Frame

Stratodesk NoTouch is one of the leading EUC management and thin client OS software for Nutanix Frame endpoints.

KEY BENEFITS

Stratodesk offers an all-in-one solution for Nutanix Frame deployments while delivering these key benefits:

- **Hardware Agnostic and Highly Scalable:**

Stratodesk software runs on any x64, x86 or ARM based device (including Raspberry Pis). Replace your need for locally installed Windows and easily scale your Nutanix Frame deployment.

- **Standardized Endpoints and Hardware Repurposing**

Standardize your endpoints by turning new and existing PCs, Laptops, Thin Clients and Raspberry Pis, regardless of manufacturer, into powerful, up-to-date Stratodesk NoTouch endpoints.

- **Highly Flexible - Any EUC Environment, Any Cloud:**

Stratodesk NoTouch connects to a wide range of virtual desktops including Nutanix Frame, Citrix Workspace, Microsoft Azure Virtual Desktop, VMware Horizon, and more.

This advanced solution consists of two components: Stratodesk NoTouch OS and Stratodesk NoTouch Center. The Linux-based, small footprint, hardware agnostic and cloud-ready Stratodesk NoTouch OS allows companies to cost effectively scale the Nutanix Frame deployment and seamlessly connect to Stratodesk NoTouch Center. Stratodesk NoTouch Center, is easily deployed onto hypervisors, including Nutanix Acropolis Hypervisor (AHV) and capable of running on premises, DaaS deployments or from the Cloud, making it the ideal solution for Nutanix Frame.

SOLUTION ARCHITECTURE/HOW IT WORKS

Stratodesk's NoTouch OS converts new and existing PCs, Laptops, Thin Clients and Raspberry Pis into secure Stratodesk NoTouch endpoints. These Stratodesk NoTouch endpoints can then be discovered and managed by Stratodesk NoTouch Center which effectively manages all x64, x86 and ARM/Raspberry Pi based devices, providing complete configuration, management, operations and maintenance capabilities from one centralized location. Stratodesk NoTouch Center communicates over HTTPS with Stratodesk NoTouch OS endpoints enabling configuration, operations and maintenance tasks to be announced securely to all endpoints.

"Thanks to our partnership with Nutanix, we deliver the most innovative endpoint computing and automated management to Nutanix Frame deployments. Though we have always been a pioneer in delivering cutting-edge products that power and manage VDI endpoints, we are seeing more businesses look to the Cloud for a simple and secure way to deliver virtual apps and desktops. Stratodesk NoTouch fulfills this need while providing the best and most intuitive OS and management solution for Nutanix Xi Frame endpoints on the market."

- Emanuel Pirker, CEO of Stratodesk

ABOUT STRATODESK

Founded in 2010, Stratodesk is the leading global innovator in EUC management and thin client OS software. Stratodesk is the fastest growing global software company redefining end user computing by delivering an all-in-one solution for VDI, DaaS and IoT markets. Stratodesk's cutting edge Linux-based OS and management suite, NoTouch, is the hardware agnostic and cloud-ready solution that enables companies to cost-effectively manage their entire secure digital perimeter. Today Stratodesk has nearly one million licenses deployed across multiple industries. For more information, please visit www.stratodesk.com.

ABOUT NUTANIX

Nutanix is a global leader in cloud software and a pioneer in hyperconverged infrastructure solutions, making clouds invisible, freeing customers to focus on their business outcomes. Organizations around the world use Nutanix software to leverage a single platform to manage any app at any location for their hybrid multicloud environments.
