

vProtect for Nutanix AHV Backup & Recovery by Storware

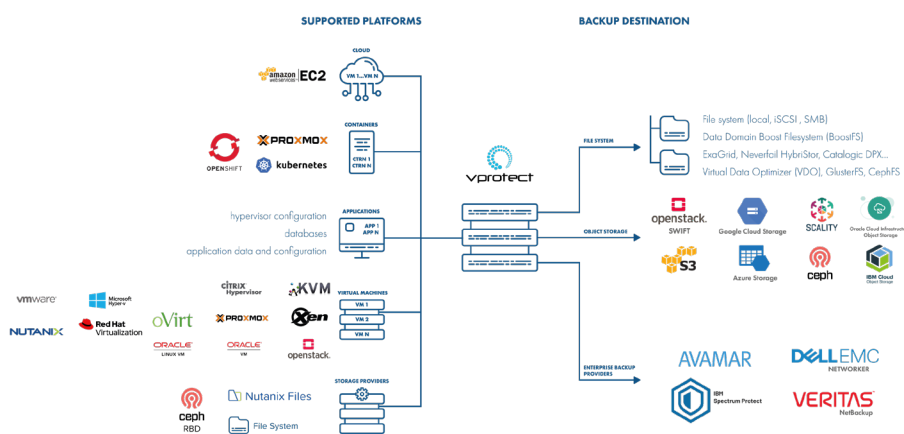

vProtect is a stable, agent-less, Nutanix Ready validated solution, providing data protection services for virtual machines running on Nutanix AHV. With an easy management interface, you are able to quickly set up protection and store backups in several different backup providers.

- Efficient, incremental backup of AHV VMs with CBT/CRT (Changed-Region Tracking)
- Snapshot-management for better RPO
- Backup consistency mechanisms for your applications running on AHV VMs
- File level restore directly from the Web UI and accessing VM disks from backups over iSCSI
- 2 different modes: independent backup server or proxy for legacy backup systems

SOLUTION ARCHITECTURE

“Storware has provided our company with the ability to share and synchronize selected data between users, regular software updates, data encryption, remote erasure and blocking of mobile devices in emergency situations. A huge improvement was the centralized management system and one secure data repository.”

- Robert Borys, IT Department Director at TOYA

NUTANIX READY VALIDATION

- vProtect is validated on Nutanix AHV

RESOURCES AND GETTING STARTED

- [Storware vProtect documentation](#)
- [Nutanix and Storware technology alliance](#)
- [Storware vProtect solution website](#)
- [Storware vProtect Resources](#)

KEY SOLUTION BENEFITS

Here are main benefits of the vProtect solution:

- Support for open and commercial virtual environments under one license
- Support for multiple backup destinations: local filesystem or a NFS/CIFS share, object storage (cloud providers) or enterprise backup providers
- Support and dedicated licensing (per compute node) for container environments
- Flexible licensing to achieve the best ROI (per Host, per VM, per TB)
- Available language versions: English, Chinese, Spanish, German
- High-quality global support 24/7/365

ABOUT STORWARE

Storware is a company building the simplified data protection software for businesses. We help to reduce the risks of data loss and its related cost. Wherever you keep your data- in the cloud, on servers (physical and virtual), or endpoints - we continuously care and bring additional value to them. Storware successfully offers products through the worldwide distribution and partner channel. The Company was set up in 2013 in Warsaw, Poland.

ABOUT NUTANIX

Nutanix makes infrastructure invisible, elevating IT to focus on the applications and services that power their business. The Nutanix enterprise cloud platform delivers the agility, pay-as-you-grow economics and operational simplicity of the public cloud, without sacrificing the predictability, security and control of on-premises infrastructure. Nutanix solutions leverage web-scale engineering and consumer-grade design to natively converge compute, virtualization and storage into a resilient, software-defined solution that delivers any application at any scale.
