

Why a Nutanix X-Powered Service Provider?

Choosing the right partner to support your IT needs can make a difference in your organization's competitiveness. Nutanix X-Powered Service Providers bring the agility and scalability advantages of the web-scale Nutanix Enterprise Cloud Platform—the same infrastructure that thousands of enterprise customers rely on—to cloud datacenters, increasing application service levels and reducing your risk.

“Our customers have been asking Q9 to deliver a private cloud solution on which they can run their critical enterprise and cloud workloads. Being a Nutanix X-Powered Service Provider means new and existing customers can be sure we’re continually focused on delivering the best solutions in the industry.”

- Tim Harrison, Product Architect & Technology Advocate, Q9

By choosing a Nutanix X-Powered Service Provider, you help make sure that your applications run smoothly while delivering unprecedented value for your users.

A SMART CHOICE

The large number of service providers out there can make choosing one difficult. With a Nutanix X-Powered Service provider, you select the services your business needs, secure in the knowledge they will deliver an unparalleled cloud experience.

INCREASED BUSINESS AGILITY AND FLEXIBILITY

With a Nutanix X-Powered Service Provider, you can respond faster than ever to new requirements and react rapidly to business changes. New employee on-boarding becomes effortless, and acquisitions can be handled without the worry of extended time tables.

You'll rest easier knowing that you can grow your footprint—even 2x or 3x—without the long lead times that would usually be required with traditional cloud service providers. Any application, any scale, any need.

CONTINUOUS INNOVATION

Nutanix X-Powered infrastructure eliminates the need for planned downtime, delivering two major benefits:

- Your business doesn't have to be designed around your service provider's maintenance schedule.
- X-Powered service providers get the latest features and performance enhancements, improving your application performance and availability.

A TRUE CLOUD EXPERIENCE

Look for the Nutanix X-Powered logo to make sure you get the agility, reliability and security you expect with the flexibility and customizability you need.
