

Database Modernization

Database Recommended Practices Workshop

BENEFITS

- Mitigate risks by understanding and implementing database design and configuration considerations when architecting a database solution on Nutanix

OVERVIEW

The Database Recommended Practices Workshop focuses on providing an overview of Nutanix recommended practices for databases hosted on Nutanix Enterprise Cloud platform.

Nutanix Xpert Services provides an Architect for 1 business day to conduct a workshop session which provides recommendations for designing, optimizing and scaling database deployments (SQL Server, Oracle, or Postgres) on the Nutanix platform.

SERVICE SCOPE

The Database Recommended Practices Workshop overview is scoped for 1 day and has the following primary objectives:

- Discuss your pain points and any previously created support tickets
- Present an overview of Nutanix Recommended Practices for running databases in areas such as Nutanix Cluster configuration, database server virtual machines (VMs), and network and database configuration
- Discuss design and configuration considerations when architecting database solutions on Nutanix
- Discuss virtualization optimizations for the hypervisor in use

PREREQUISITES

- Information on previous support tickets
- Information on existing Nutanix environment
- Customer SMEs to attend the workshop

DELIVERABLES

- Database Recommended Practices presentation

TASKS

	Duration
Database Recommended Practices Workshop	typically 1 day, delivered remotely
