

Enterprise Architecture

End User Computing Transformation Strategy KickStart

BENEFITS

- Maximize business outcomes with guidance and real-world expertise from an experienced specialist
- Speed transformation by targeting key applications for transformation
- Save valuable resources by migrating applications without refactoring
- Avoid common pitfalls that result in critical design errors and overly complex architecture

AUDIENCE

- IT leaders and business stakeholders seeking a foundational understanding of how to plan and execute a successful EUC deployment

OVERVIEW

The End User Computing (EUC) Transformation Strategy KickStart is a fast-paced, 2-hour workshop that gives your IT team a foundational understanding of how to plan and execute a successful EUC deployment.

This workshop provides insight into:

- Reasons for using EUC
- Virtual desktop infrastructure (VDI) planning considerations
- Complexities behind an EUC/VDI environment
- Desktop and application virtualization planning facilitation
- Key areas to consider when planning for EUC success

This workshop is packed with all the information your IT team needs to either begin their journey toward EUC or accelerate their approach towards an existing transformation.

Additionally, our seasoned experts deliver guidance on how the Nutanix platform increases cloud operational effectiveness and efficiency using real-world examples of hybrid cloud deployment success.

SERVICE SCOPE

Delivered by an experienced specialist, this KickStart workshop showcases leading-edge thought leadership by providing relevant, actionable insights on critical EUC strategies proven to drive successful business transformation. In addition to a high-level overview of EUC/VDI architecture, the workshop introduces the decisions critical in driving successful EUC transformation delivers the performance users require.

The service is best suited for businesses starting the hybrid cloud journey or those who wish to modernize their existing EUC/VDI strategy.

PREREQUISITES

- Knowledge of virtualization and how desktops are deployed today

DELIVERABLES

- Discovery Questionnaire
- Workshop slides and supporting enablement content
- Optimized customer strategy
 - o Summary of relevant key concepts
 - o Next steps to advance strategy

Available topics include:

- Shift mindset to treat VDI as a vehicle to deliver applications as opposed to desktops
- Understand the stages of the EUC journey and the impact on people, process and technology
- Explore powerful customer success stories about how VDI solved difficult business problems

Optional topics include (choose 3):

- Designing for user experience and sizing accordingly
- Network implications for VDI
- Scaling easily and systematically
- Designing Active Directory
- Metric-driven analytics to ensure positive user experience
- Disaster recovery nuances for VDI
- Application delivery strategies
- Strategies to drive broad adoption

TASK

	Duration
EUC Transformation Strategy KickStart	Typically 2 hours delivered remotely
