

Pre-Go Live SAP validation

Nutanix Services will conduct a Pre-Go Live SAP Validation package. Nutanix Consultant will conduct a Workshop with the Customer using a collaborative approach. This will allow the Customer to gather knowledge and experience, while consultant performs the Pre-Go Live SAP work.

It should be noted that this is not a product enablement session. The key objectives of the workshop are to present the Nutanix best practices for running SAP to the Customer's Operations team, as well as the fundamentals, features and functionalities of Nutanix infrastructure platform.

Engagement success is contingent on Customer adherence to "Customer Responsibilities" as stated below in this document as well as any applicable restrictions in product documentation.

KEY TASKS AND ACTIVITIES

Nutanix Consultant will carry out a Workshop with the key stakeholders. The objective is to validate the implementation of the solution, and provide guidance based on best practices, design and past experience in similar use-cases.

The Consultant will review the Customer's environment and if appropriate will provide concrete, actionable recommendations to optimize its existing Virtual Infrastructure, including referencing to Nutanix recommended best practices.

The following key activities will be carried out by Nutanix Consultant during this phase:

- A workshop delivered onsite or remote, covering the following topics
 - SAP on Nutanix best practices customized for the Customer's deployment.
 - Knowledge Transfer and Training on running SAP on Nutanix
 - Technical recommendations in order to run the SAP implementation on Nutanix

ASSUMPTIONS

- All relevant Customer's stakeholders must be available to attend the workshop sessions.
- Customer adheres to "Customer Responsibilities" stated below.
- These service offerings can be used for SAP on HANA, SAP on SQL and SAP on Oracle.

DELIVERABLES

- Pre-Go Live SAP on Nutanix Workshop and recommendations
