

Nutanix Hyper-converged Infrastructure

Storage Consolidation Workshop

BENEFITS

- Accelerate your adoption of the Nutanix platform by leveraging experienced consultants
- Lower migration risks with a comprehensive plan tailored to your specific requirements
- Identify requirements and considerations to successfully migrate workloads to the Nutanix Enterprise Cloud Platform
- Comprehensive project documentation and knowledge transfer

OVERVIEW

The Storage Consolidation Workshop focuses on collaborating with the customer to assess and plan the migration process for existing block, file, and object data to streamline and accelerate solution deployment, adoption and to enable business outcomes.

A certified Nutanix consultant will deliver a series of assessment and planning workshops to ensure that migration requirements are identified and met the first time while adhering to Nutanix and industry recommended practices and minimizing cost and complexity.

After the workshops a customized Nutanix Migration Plan workbook will be created documenting requirements, constraints, assumptions and detailing the migration plan.

SERVICE SCOPE

Develop the plan for migrating from the customer's current state and infrastructure to a defined future Nutanix-based infrastructure

This fixed outcome service will cover planning for the migration of data from up to ten (10) sources (share/bucket/LUN) of one (1) of the following data types of customer choice depending on the customer needs:

- File data migrating to Nutanix Files
 - Block data migrating to Nutanix Volumes
 - Amazon S3 compatible bucket/object data migrating to Nutanix Objects
- Should a customer need to migrate from more sources or more than one (1) of the above data types additional separate workshops must be purchased and conducted.
