

Infrastructure Modernization

Storage Consolidation Workshop

BENEFITS

- Accelerate your adoption of the Nutanix platform by leveraging experienced consultants
- Lower migration risks with a comprehensive plan tailored to your specific requirements
- Identify requirements and considerations to successfully migrate workloads to the Nutanix Enterprise Cloud platform
- Gain understanding with comprehensive project documentation and a knowledge transfer session

OVERVIEW

The Storage Consolidation Workshop focuses on collaborating with the customer to assess and plan the migration process for existing Block, File and Object data. The workshop helps to streamline and accelerate solution deployment and adoption, and to enable business outcomes.

A certified Nutanix consultant delivers a series of assessment and planning workshops to ensure that migration requirements are identified and met the first time. The workshops ensure that requirements adhere to Nutanix- and industry-recommended practices while minimizing cost and complexity.

After the workshops, our experienced consultant gathers and documents requirements, constraints, assumptions and risks. The consultant also creates a detailed migration plan.

SERVICE SCOPE

Develop the plan for migrating from your current state and infrastructure to a defined future Nutanix-based infrastructure

This fixed-outcome service includes planning for the migration of data from up to 10 sources (share/bucket/LUN) of one of the following data types of your choice, depending on your needs:

- File data migrating to Nutanix Files
- Block data migrating to Nutanix Volumes
- Amazon S3-compatible bucket/object data migrating to Nutanix Objects

Should you need to migrate from more sources or more than one of the above data types, additional separate workshops must be purchased and conducted.

DELIVERABLES

- Project schedule
- Project status reports
- Requirements gathering and design workshops
- Configuration workbook
- High-level Design/Migration presentation
- Solution Deployment/Migration Plan
- Solution/Migration Test Plan
- Project close out

Note: This offer is available with tiered documentation, defined here <https://www.nutanix.com/support-services/consulting-services/documentation-tiers>

Planning Service:

- Gather and document migration requirements, constraints, assumptions, dependencies and decisions for the migration effort
- Assess the current state of systems to be migrated
- Review options for migrating existing data to the planned Nutanix infrastructure, including recommended migration tools
- Assess network configuration impacts and requirements
- Develop a migration plan, process and migration waves
- Develop a post-migration validation plan

TASK

	Duration
Nutanix HCI Storage Consolidation Workshop	Typically 2 days
Nutanix HCI Storage Consolidation documentation creation	Typically 2 days
