

HAVE YOU VIRTUALIZED YOUR SAP LANDSCAPE?

HERE'S WHY YOU SHOULD:

IMPROVED AVAILABILITY

Updates and infrastructure refreshes won't have any impact on application availability.

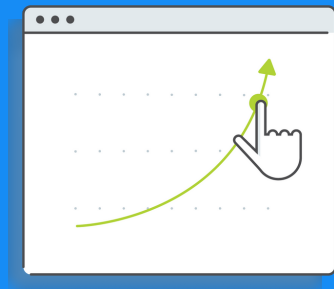

IMPROVED RECOVERABILITY

Non-disruptive app recovery maintains 100% data availability and reduces unplanned downtime by 97%.

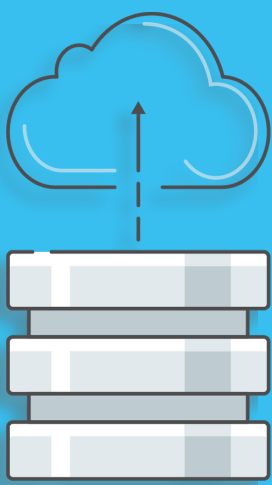

AUTOMATED PROVISIONING

On-demand app deployment ensures consistency and scalability across SAP environments.

SIMPLIFIED DRIVER STACK

Reduces risk for apps and eliminates the need to manage storage multi-pathing and network teaming.

OPTIMIZED SAP SUPPORT

388,000 global companies rely on SAP. On Enterprise Cloud, you can expect stellar performance, availability, cloud-like infrastructure consumption, and more.

MAKE THE MOST OUT OF SAP
