

Build on Your Hybrid Cloud Strategy at .NEXT!

The enterprise datacenter is evolving—from legacy hardware-intensive systems to software-defined infrastructure that runs on commodity servers powered by a cloud OS. This evolution includes much more than hyper-converged infrastructure. It's about taking IT to the next level by combining the agility and one-click simplicity of the public cloud with the control, security, and predictable economics of a private cloud.

Are you ready for the next wave of IT transformation? Join us at [.NEXT D.C. to find out.](#)

DISCOVER WAYS TO TACKLE TODAY'S MOST PRESSING IT CHALLENGES

.NEXT is an industry-leading technology conference where IT professionals gather to get a first look at the latest in enterprise cloud solutions, hear expert advice on building enterprise datacenters, and network with peers on the value that IT can bring to the business. The event features main stage sessions designed to inspire innovation and professional growth, technical tracks to dive deep into the latest enterprise cloud technologies, and vision tracks to help with strategic planning. Product experts, customers, and partners are ready to dig into what matters most to IT professionals today such as big data, security, workload lifecycle, hybrid clouds, machine learning and more.

DRIVE HIGHER PRODUCTIVITY AND BUSINESS RESULTS

Take the next step to creating more business value. This year's .NEXT agenda is specifically designed to help you learn technical skills and best practices for a range of topics including architecting efficient Oracle environments, tackling Splunk Enterprise, Citrix and VMware VDI, and exciting new content on the Bridge to SAP HANA, network segmentation, and consolidating mixed block and file workloads on a single platform. You'll walk away with the knowledge and ideas to plan and drive your IT roadmap for the next twelve months.

GET THE MOST OUT OF YOUR IT INFRASTRUCTURE

Whether you're new to Nutanix or a seasoned user, we have something for you. Pick from sessions in a preferred focus area or "jump tracks" to get a different perspective on how to maximize your product usage and focus on the apps and services that power your business.

Choose from six deep dive tracks

Products and Technology

Covering fast-growing Nutanix AHV virtualization, web-scale architecture, networking and micro-segmentation, native file services, block storage, & more.

Nutanix Fundamentals

"101" sessions with product overviews and explanations for newer members of the Nutanix family

Applications and Workloads

Design and operational best practices for a wide range of applications including Oracle, SAP, Splunk, Microsoft SQL Server, Exchange

IT Vision and Strategy

How to create a strategic and competitive advantage with IT, driving the business with datacenter investments, and machine learning for the masses.

Hybrid Cloud Essentials

Understand the right cloud choices for your organization and learn how to manage applications across different clouds.

"Unconference" Sessions

Industry experts and community members share insights and perspectives from their experiences using Nutanix.

IMPROVE TEAM SKILLS AND KNOWLEDGE

Use this opportunity to take classes like our full-day, instructor-led Acropolis 5.0 course (available at a discounted rate through March 31!), and explore certification opportunities like the Nutanix Platform Professional (NPP) or Nutanix Platform Expert (NPX) certifications.

BUILD YOUR NETWORK

Learn how to best utilize Nutanix for your specific industry's needs, and connect with like-minded industry professionals to swap ideas, best practices, tips, and lessons learned.

Federal Government
Security and secure by-design architecture

Healthcare
EMR and PACS systems

Service Providers
Managed and hosted delivery; OpenStack and Cloud automation

Financial Services
Security, compliance, and risk management

Education
Mobility, virtualization, and digital and personal learning

Manufacturing and retail
Managing applications like ERP, CRM, POS, and analytics

GET HANDS-ON WITH TECHNOLOGY LABS

This isn't a "sit back and listen" conference. We encourage you to get familiar with our product—try new features you haven't utilized previously, or take our latest and greatest

BE INSPIRED AND INFORMED

Our general sessions and keynotes feature forward-thinking luminaries discussing the topics you care about. Be there as we unveil our latest product evolution in the opening keynote, and hear speakers like Mick Ebeling, CEO of Not Impossible, Adena Friedman, the President and CEO of NASDAQ, and Bill McDermott CEO of SAP share how they've moved the needle in the tech world.

NUTANIX
Your Enterprise Cloud Platform

T. 855.NUTANIX (855.688.2649) | F. 408.916.4039
info@nutanix.com | www.nutanix.com | [@nutanix](https://twitter.com/nutanix)

Nutanix makes infrastructure invisible, elevating IT to focus on the applications and services that power their business. The Nutanix enterprise cloud platform leverages web-scale engineering and consumer-grade design to natively converge compute, virtualization and storage into a resilient, software-defined solution with rich machine intelligence. The result is predictable performance, cloud-like infrastructure consumption, robust security, and seamless application mobility for a broad range of enterprise applications. Learn more at www.nutanix.com or follow us on [Twitter@nutanix](https://twitter.com/nutanix).
