Service Scope

Highly skilled consultants with strong database domain expertise and rich experience begin with validating the customer-provided migration plan to ensure the database migration requirements and rollback options are valid. The consultant then migrates the database(s) according to the migration plan.

The service includes the following activities:

- Validate database migration plan and rollback options
- Validate source and target database(s)
- Migrate the database(s) based on the migration plan
- Validate migrated database data and application connectivity after migration

Limitations

- Excludes migration planning
- For each quantity purchased, migration is limited to 1 database or up to 1 TiB
- A minimum of 3 databases per migration wave is required
- Excludes performance validation after the migration
- Minimum 1G (10G recommended) network availability is in place between the source and target database

Supported Databases

- Microsoft SQL Server
- Oracle
- PostgreSQL

Supported Hypervisors

- Nutanix AHV
- VMware ESXi
